HOW TO USE THE PETRI TELE-CONVERTER

Red mark is on top of the camera body.

Bayonet mount receptacle

Red mark is furnee to clock-wise direction

Check that the red mark is at the top on the Bayonet Releasing Ring of the camera body and turn it tightly to clock-wise direction after inserting the Tele-converter into the Bayonet Mount Receptacle of the camera body.

In the same way as done above, put the standard lens or any other interchangeable lens you are going to use to the bayonet mount of the Teleconverter. You will get twice as long field through the viewfinder.
